

## HOW TO find journals and articles in the new Library OneSearch

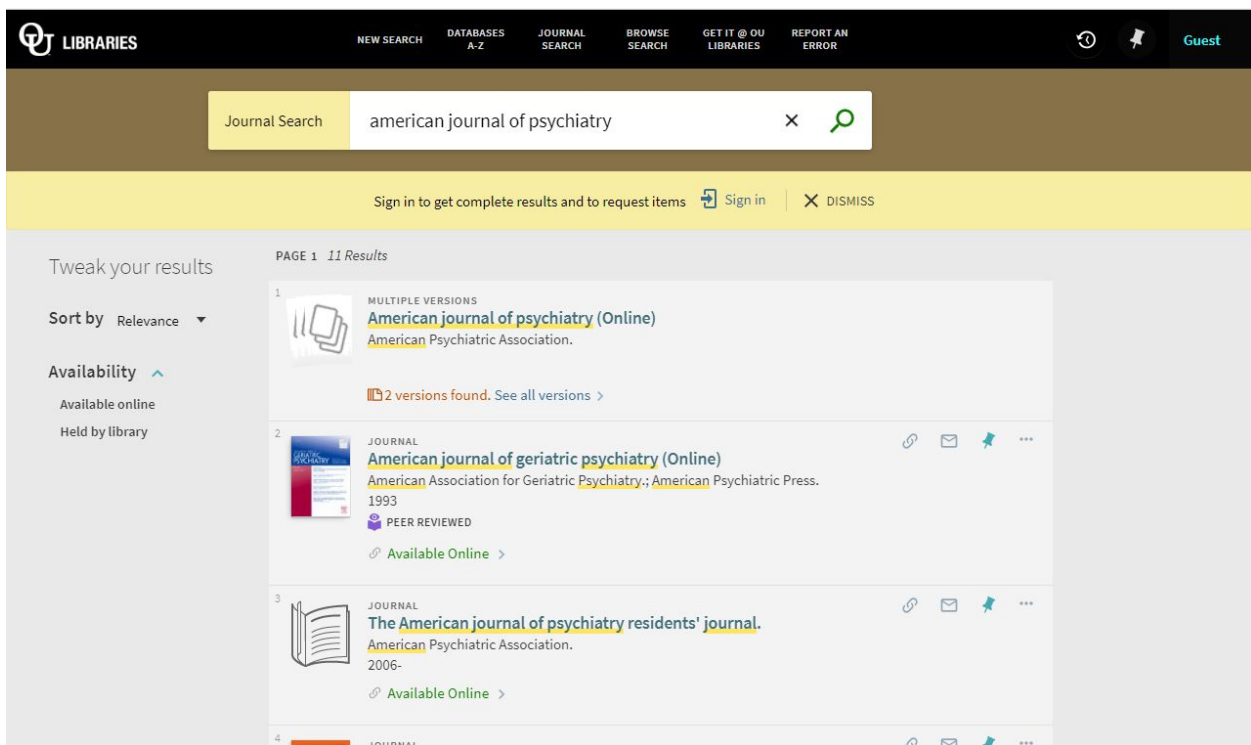

### Searching for journals

Use the [Journal Search](#) link if you know the title of the journal you are looking for. You can get directly to the search by using the following URL:

[https://col-oakland.primo.exlibrisgroup.com/discovery/jsearch?vid=01COL\\_OAKLAND:OU](https://col-oakland.primo.exlibrisgroup.com/discovery/jsearch?vid=01COL_OAKLAND:OU)

Enter the name of the journal (i.e. American Journal of Psychiatry) in the search box, and click on the magnifying glass icon to search.

Note that in this example, the result for “American Journal of Psychiatry” indicates that there are two versions of the item in Kresge Library. Clicking on the result will open up a new list that shows you what versions of the item we have available. In this instance, Kresge Library owns the journal both in print and online.

The screenshot shows the library's search interface. At the top, there is a navigation bar with links for 'NEW SEARCH', 'DATABASES A-Z', 'JOURNAL SEARCH', 'BROWSE SEARCH', 'GET IT @ OU LIBRARIES', and 'REPORT AN ERROR'. A search bar contains the text 'american journal of psychiatry'. Below the search bar, there is a yellow banner with the text 'Sign in to get complete results and to request items' and buttons for 'Sign in' and 'DISMISS'. On the left side, there are 'Active filters' including 'List of Versions' and a 'reset' button. Below that, there are options to 'Tweak your results', 'Sort by', and 'Availability' (with sub-options 'Held by library' and 'Available online'). The main area displays '2 Results'. The first result is 'The American journal of psychiatry.' by the American Psychiatric Association, published in 1921, and is 'Available at OU Kresge Library Journals - 4th Floor (non-circulating) (RC 321 .A52)'. The second result is 'American journal of psychiatry (Online)' by the American Psychiatric Association, published in 1921, and is 'Available Online'.

Clicking on the second result will show you which databases you can use to access full text versions of the journal. Some journals may be available in more than one database. Clicking on the title of the database will take you directly to the online version of the journal.

The screenshot shows the detailed view for the 'American journal of psychiatry (Online)'. It includes a 'Send to' section with icons for 'PRINT', 'REFWORKS', 'CITATION', 'PERMALINK', and 'EMAIL'. There is a 'Search inside' section with a search bar for articles within the journal. Below that, there is a 'View Online' section titled 'Full text availability' which lists two databases: 'Nursing and Allied Health' (available from 1988 until 2013) and 'PsychiatryOnline Premium Package' (available from 1997). Each database entry has a small icon to its right.

From there, you may either browse specific issues of the journal or search within the publication.

The screenshot shows the ProQuest interface for the publication 'The American Journal of Psychiatry; Washington'. The page includes a navigation bar with 'Basic Search', 'Advanced Search', 'Publications', 'Browse', and 'Databases (27)'. The 'Publication Information' section provides details such as the latest available issue (Feb 1, 2018, Vol. 175 (2)), citation/abstract coverage (Jan 1986 to Dec 2013), ISSN (0002-953X), and publication title history (American Journal of Insanity, Washington until 1921). A search box is available for searching within the publication. Below the search box, there is a section for 'Browse specific issues' with a note that the list is ordered by most recent issue first. Two issue ranges are visible: '2010 - 2018' and '2000 - 2009'.

## Searching for articles

To search for articles on a specific topic, enter your keywords in the search box and select the *Articles* option.

The screenshot shows a library search interface. The search bar contains the query '"kidney disease" nutrition'. A dropdown menu is open, showing three options: 'Everything', 'Articles', and 'Course Reserves'. The 'Articles' option is highlighted. The interface includes a navigation bar with 'LIBRARIES', 'NEW SEARCH', 'DATABASES A-Z', 'JOURNAL SEARCH', 'BROWSE SEARCH', 'GET IT @ GU LIBRARIES', and 'REPORT AN ERROR'. There are also icons for a home page, a star, and a 'Guest' user profile. An 'ADVANCED SEARCH' link is visible to the right of the search bar.

Your search result will look like this:

The screenshot shows a library search interface. At the top, there's a navigation bar with 'LIBRARIES' and various search options. A search bar contains the query '"kidney disease" nutrition'. Below the search bar, there's a yellow banner with 'Sign in to get complete results and to request items'. The main content area displays search results for 'PAGE 1 40,162 Results'. On the left, there's a 'Tweak your results' sidebar with filters for 'Expand My Results', 'Sort by Relevance', 'Availability', 'Type', and 'Author/Creator'. The search results list three articles:

- Nutritional strategies to reduce inflammation in chronic kidney disease patients**  
Mafra, Denise  
Nutrition, July-August 2015, Vol.31(7-8), pp.1054-1054  
attenuated chronic fructose consumption-induced kidney injury in rats by... Inflammation is a common feature in chronic kidney disease (CKD) patients...

kidney patients is essential to allow an adequate... is now evidence that patients with chronic kidney... these important points. CHRONIC KIDNEY  
PEER REVIEWED

Note that there are several ways to narrow down your list of search results using the facets on the left side. Some popular options include limiting results to articles that are **available online** or articles that are in **peer reviewed journals**. You can also limit by **type**, **author**, or **subject**. Just click in the boxes next to your selections and then click **Apply Filters**.

This screenshot shows the same search results page as above, but with several filters applied in the 'Tweak your results' sidebar:

- Available online
- Peer-reviewed Jou...
- Kidney Dise... (4,347)

The search results list is the same as in the previous screenshot, but now includes a 'CLEAR' button and a green 'APPLY FILTERS' button at the bottom of the sidebar.

If you would like one or more of the filters you have selected to remain active for new searches within the same session, hover over the filter and select the lock icon to make the filter “stick.”

The screenshot shows a library search interface. At the top, there is a navigation bar with 'LIBRARIES' and various search options like 'NEW SEARCH', 'DATABASES A-Z', 'JOURNAL SEARCH', 'BROWSE SEARCH', 'GET IT @ DU LIBRARIES', and 'REPORT AN ERROR'. A search bar contains the query '"kidney disease" nutrition'. Below the search bar, there is a yellow banner with 'Sign in to get complete results and to request items' and a 'DISMISS' button. The main content area shows '3 Results' and a 'Personalize' toggle. On the left, there are active filters: 'Peer-reviewed Journ...' and 'Available online'. A 'reset' button is also present. The search results list two books titled 'Nutrition in Kidney Disease'. The first result is by Byham-gray, Laura D.; Byham-Gray, Laura D. editor.; Chertow, Glenn M. editor.; Burrowes, Jerrilynn D. editor. (2008) and is marked 'Available Online'. The second result is by Burrowes, Jerrilynn D.; Byham-Gray, Laura D. editor.; Burrowes, Jerrilynn D. editor.; Chertow, Glenn M. editor. (2014) and is also marked 'Available Online'. A 'Tweak your results' section on the left includes 'Expand My Results' and 'Sort by Relevance'.

Clicking on a search result (either the title or the text that reads **Available Online**) will open a new page that will direct you to the databases that contain your chosen article. To access a full-text version, click on one of the database titles (i.e. Elsevier Science Direct Journals, Nursing and Allied Health, etc.) Your article will open in a new window.

The screenshot shows a detailed search result page. At the top, there is a thumbnail of 'THE LANCET' journal. The article title is 'Chronic kidney disease and cardiovascular risk: epidemiology, mechanisms, and prevention.(Report)(Author abstract)'. The authors listed are Gansevoort, Ron T.; Correa - Rotter, Ricardo; Hemmelgarn, Brenda R.; Jafar, Tazeen H.; Heerspink, Hiddo J. Lambers; Mann, Johannes F.; Matsushita, Kunihiro; Chi Pang Wen. The article is from 'The Lancet, July 27, 2013, Vol.382(9889), p.339(14)'. It is marked 'PEER REVIEWED'. Below the article information, there is a 'Send to' section with icons for 'PRINT', 'REFWORKS', 'CITATION', 'PERMALINK', and 'EMAIL'. There is also a 'View Online' section. Under 'Full text availability', there is a table listing databases and their availability status:

Database	Availability	Action
Elsevier ScienceDirect Journals	Available from 1995	[Link]
Nursing and Allied Health	Available from 1992 Most recent 3 month(s) not available Testing Service Authentication Note Testing Service Public Note	[Link]
ProQuest Natural Science Journals	Available from 1992 Most recent 3 month(s) not available	[Link]
ProQuest SciTech Premium Collection	Available from 1992 Most recent 3 month(s) not available	[Link]
Elsevier ClinicalKey Books		[Link]
