

## HOW TO find course reserves in the new Library OneSearch

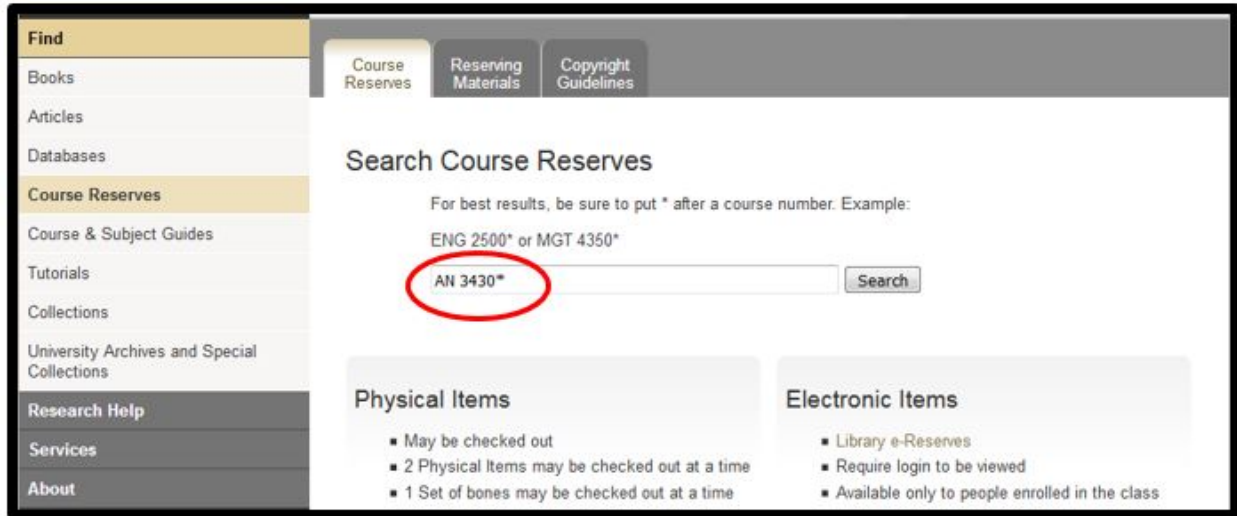

How do I find a book or article that my professor has placed on reserve?

From the library's webpage at: <https://library.oakland.edu/>

Look in the left column, and under **Find**, click **Course Reserves**.

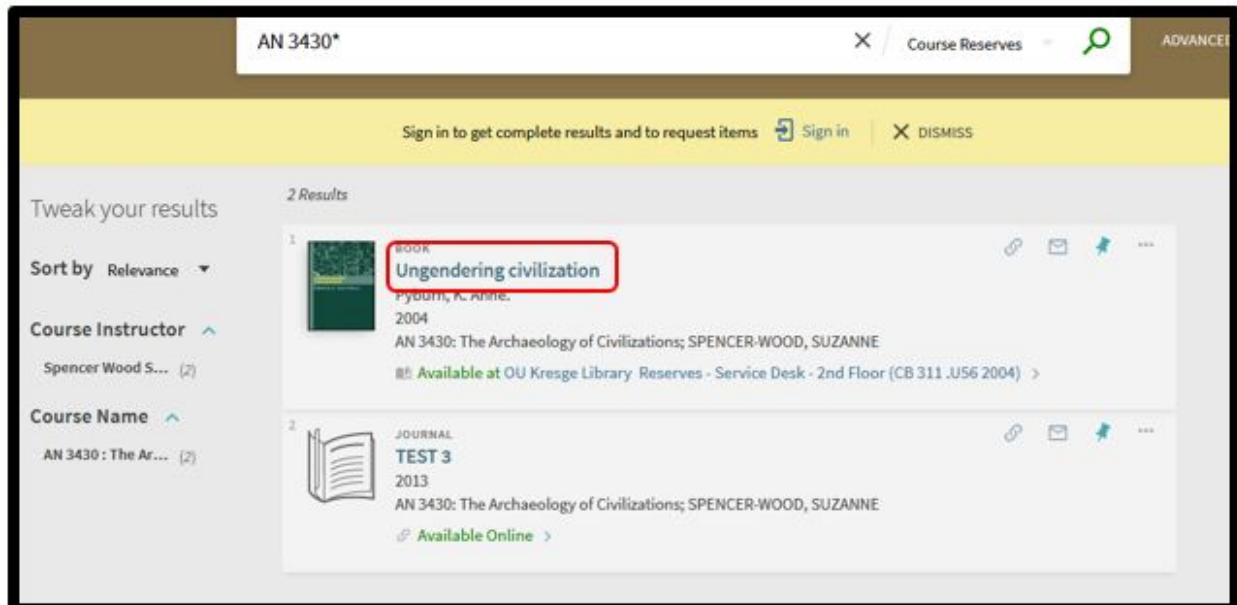

Next, enter your course number and add an asterisk \* at the end of the course number. Click **Search**.

If there are many sections of this course, select your course section. Next you'll see a list of items on reserve for that course.

- The first item is a book, and you'll find it at the Service Desk in the library. To find more information about the book, click the title.

Here's a bit more information including sending options. You can also get a citation to the book, upload the information to RefWorks, or develop a permanent link to this information.
